I. ABOUT THIS CODEBOOK

This codebook contains the names and coding for all variables from ROUND 1 in the combined PANELFILE. All variables from ROUND 1 have the appendage “1” For information on variable name conventions, missingness, weights, and other survey design-related questions, please see the *Access to Durable Solutions Among IDPs in Iraq: Quantitative Methodology Report*.

II. NOTES ABOUT ROUND 1

As stated in the *Quantitative Methodology Report*, unless otherwise specified, missing data are denoted in one of two ways. Responses were coded -88 if the question was not applicable, and responses were coded -99 if the respondent did not know or refused to answer the question. Users also should consult the *Quantitative Methodology Report* for the research team’s recommendations on the use of the included weight variable (**weight1**).
